SHE KEPT ADDING TO IT

A psychic, so the story goes, fold Mrs. Sarah Pardee Winchester she would never die if she building this house in San Jose, Calif. This weird conglumeration is the result of 36 years' construction which ended with her death and cost an estimated \$3,000,000.

BY SAM JACKSON

(AP Feature Service Writer) SAN JOSE, Callf.—Having spent 13 years in the Winchester 'ghost house,' Custodian John R. Brown and his wife say they are experiencing phenomena they can't explain.

ena they can't explain.

When they moved into the weird 180-room structure in 1823, the Brown is scoffed at the idea the spirit of its owner, Mra. Sarah Pardee Winchester, of the wifle-manufacturing family, would cause them any trouble. Nor were they sfraid of the floating faces and detached hands which a parlor maid declared materislized around Mrs. Winchester.

Many mediums asked permission to hold seances, but the Browns turned them down and have been exhibiting the house merely as an architectural monstrosity. Footsteps In the Dark

But now, after the 18th year—
"There have been footsteps going through the house at night,"
says Brown. "I get up and search
and I can't find anything. It's happened time and again.
"Something keeps unlatching the
door. One day it happened three
times—unlatched from the inside
when I was the only person in the
house."

"People think they hear voices her old bedroom," says Mrs. rown, "but we just hustle them

Knows of No Attraction

Brown thinks of nothing that would attract human prowlers. It is true that obligaries stated Mrs Ninchester's \$20,000,000 fortune had shrunk at her death to \$4,000,000, but Brown does not believe any of the vanished money is hidden on the estate. "She handled her money by checks," he says. The income from what was left went to eight nephews and ninces, the residuary estate to the New Mayon Harris.

Much Work Torn Out

The motif 13 is repeated again

and again in the paneling.

Neighbors who watched the work said several times as many rooms were built and destroyed as now survive. A marquetry floor it took three years to lay was ripped up the day after completion. "The spirits ordered it," they

explained. A niece, Margaret Marriot, was the only person to share the singu-lar builder's company. Mrs. Win-chester hid even from most of her chester hid even from most of her servants and often wore a vell. Scarcely half a dozen person have seen her in as many years," sald a news, story appearing in 1808.

Getting Acquainted.

John L Leals has become one of the nes important men in the United States He has made himself the dominant fig ure of union labor it is reported on good ant) ority that he stands in high favor at the White House. Singlehunded he un trois the policies and reginnes of the United Mine Workers of America a large and powerful union. He is chairman of the Committee for Industrial Organizationthe CIO-which is thicatening to paralyze the great industries it seeks to organize unless they comply with its demands.
These are well known facts about John

L. Lawis Yet strangely almost nothing is known about the min With the exception of those who have had appellal reasons for knowing him Mr I cwis is a total stranger to the country which lately has considered him so important. This condition of course will be remedied in the near future I cwis is ready to make himself better

On New Year's eve he delivered a spe on the radio He spoke as a man in full possession of vast power. He promised to ner limi power against amployers to force them to let him have his way. He resorted freely to the arguments of class betred making it appear that employers as a cluss are tighting unfairly and lilegally to prevent Mr Lawis from succeeding in an enter-prise of whose rightness there can be no legitimate doubt. He placed the entire burden of responsibility for the future on leaderk of industry not mentioning that leaders of labor due to the enormous power they consess must share part of the testons! bility themselves

With the exception of a few speeche made in the course of the presidential cam paign, Mr Lewisa New Years ave address was the country's first insight of the philosophy of this important figure. In say it was not reasouring is to admit that Mr Lewis did what he wanted to do Plainly It is not his purpose to be reassuring

Sleigh Ride.

That vehicle of reckless sportsmen the sleigh has taken another life and inflicted painful injury on a well known figure in the news Paggy Hopkins Joyce The story sounds like comething from the newspa pars of 50 years ago To be honest about it, the world is mo s

than a little astonished over the accident in which Vivian Jackson. English professor and Miss Joyce's flance was killed For the sleigh once regarded askance by con servatives as a too reckless and dashing may of traveling in the winter time at most had been forgotten

There was a day though when a cut ter whizzing along builted one or two fast horses made the blood race and caused clucks of consternation on the part of more paraful parsons who it they rode in one of the things at all insisted that the horses be slow of foot and calm of temperament

Young men saved their money to buy the lightest and shiniest rigs available Then they saved more money to purchase a faster and liveller horse. The combination was good if a bit risks. Winter instead It does now speeded it up. Sleigh rucas were far out ahead of buggy races as an outlet for the sporting instinct

It is therefore a slight shock to learn that in Switzerland where Miss Hopking flance met his death a Cust sleigh ride still holds its former position as a thriling and

Before I are Frutina I are other Bakers Bread and I know that Bread makes you take or neight if you like it and eat it as I do. And no one likes to be fat so I heard about Frutina and I fried it and I liked its sweet flavor and its reaction upon the body. So I want only Frutina Bread and you will too if once you take it.

It is not only good for CONSTIPATION but it is WHOLESOMI and LIRF.

I know my husband always calls for it. It would be awful hard for us to change back to other bread after eating Frutina. Just like taking a toy ways from a baby.

Frutina Bread doesn't dry out either and the more you cat the more you want. So three cheers for my favorite bread. FRITINA IT: if
